JUNGFRAUBAHNEN MANAGEMENT AG

Jungfraubahn Holding AG entrusts Jungfraubahnen Management AG with the provision of management infrastructure and the provision of the services in specialist areas. The most important asset of this company is the central IT infrastructure of the Jungfrau Railways. The remuneration of CHF 4.9 million received by Jungfraubahnen Management AG for services to third parties comes from cost codes, particularly from Berner Oberland-Bahnen AG, and direct billing of services. Management AG also increasingly generates commission income from sales, in particular tickets via the Internet.
